

## RABBIT

### THE BASICS:

- BUCK : male rabbit
- DOE : female rabbit
- KITTEN or KIT : baby rabbit
- GESTATION : 30 days
- AVERAGE SIZE: Varies based on breed
- AVERAGE LITTER SIZE: 4-12 kits
- Rabbit ears can be as long as 4 inches

### THE EXTRAS:

- Rabbits are herbivores that graze on grasses and leafy plants.
- Rabbits move around by hopping around on their long, powerful hind legs.
- Wild rabbits live on every continent except Antarctica and are found in all types of climates.
- Tame rabbits make good pets. They can be trained to use a litter box and some can be trained to come when you call their name.
- Rabbits typically live in groups in the wild.

### OUR RABBITS:

- We have 2 rabbits. Flower is the small brown and white one and Snowflake is the large black and white lop ear.
